Sight & Sound Conservatory

Our Education Philosophy

The Sight & Sound Conservatory is uniquely positioned to provide promising young artists professional training in the performing arts - from a Christ-Centered Worldview.

There are many excellent theatre schools and many wonderful professional theatres. However, there are not many professional theatres that operate integrated theatre schools; and very, very few that do so from a Christ-Centered Worldview. Our vision is to provide a place where young performing artists can experience quality professional theatrical training that embraces a Christ-Centered Worldview.

Christ-Centered Worldview

Sight & Sound Conservatory defines a Worldview as the philosophical “lens” through which a person sees and interprets the world. At SSC, our definition of a Christ-Centered Worldview is the belief that (1) God exists, and that He created everything that exists; (2) that the Bible is the Word of God and the ultimate standard for truth; (3) that Jesus Christ is the Son of God Who died on a cross and rose from the dead to grant forgiveness of sins and eternal life to all who would believe in Him. To fulfill the mission of SSC, each student must personally embrace this Christ-Centered Worldview.

Education Objectives

The primary objective of the Sight & Sound Conservatory is to invest in the next generation of Christ-Centered performing artists by training and mentoring them in the foundational elements and disciplines of the performing arts, and immersing them in the dynamic environment of professional theatre. The core method of our training is an apprentice based approach: (1) teaching essential performance skills; (2) providing the opportunity to develop skills in a professional setting; and (3) cultivating a lifestyle of character, commitment and competence in relation to the world around them. Whether in the secular or religious realm of performing arts, it is our intention that each graduate of Sight & Sound Conservatory will be a proficient, productive, and powerful influence for Christ in the world.

Teaching Methodology and Subjects Offered

A core value of SSC is to invest in our students by enriching both the performer and the person. All SSC courses and labs will fulfill a Threefold schema: Skills, Experience, and Discipleship.

Skills. Students at SSC will train in the essential elements of performing arts. Course work is designed to engage three main disciplines: acting, singing, and dancing. Each day, students will train in these disciplines and their related classes. For example, in the discipline of acting, classes such as Improvisation, Shakespeare, and Voice and Speech will support weekly Acting classes. Likewise,
Dance classes will be augmented by courses in Movement and Stage Combat, and Musical Theatre singing will be supported by private voice lessons and instruction in Sight Singing.

SSC’s primary teaching methodology will be situated learning, however, classroom based techniques such as lecture and text book reading will also be employed.

**Experience.** In keeping with an apprentice approach, a unique and dynamic component of SSC is that students will perform in Sight & Sound Theatres® stage productions as members of the cast. This is an invaluable opportunity for the developing performing artist. As cast members, students will experience the rehearsal process and the full run of a professional theatre production, working alongside seasoned performers and theatre artists. This is where the theories of the classroom become the craft of the performer on stage.

**Discipleship.** A primary purpose of SSC is to create an environment where the student can discern and develop who they are as a person, and an artist, with a Christ-Centered worldview. How will their relationship with Christ influence how they relate to the world around them, professionally and personally? To help facilitate this, working professionals will share their experience with the students, encouraging a dialogue on what it means to live out Biblical principles in the world today.

**Seminars in Theatre Arts.** To broaden the students’ comprehensive knowledge of theatre arts, resident Sight & Sound professionals will teach in a series of “stagecraft” seminars focusing on such theatrical elements as Lighting, Costumes, Audio, Art and Media, Set Design, Marketing, Directing, and Stage Management. SSC will also bring in at least one Guest Artist a year for an extended seminar in the performing arts.

**Program Description**

SSC is a very demanding and intensive experience. Students will be in class and or performing up to 10 hours a day, five and a half days a week. Each week, students will train in acting, singing, and dancing. Throughout each semester, SSC will provide a wide range of classes to promote a more expansive theatre training experience. Additionally, at the completion of the program a student graduation “showcase” will be presented.

**Student Life**

A typical day at SSC might include a stage combat class, scene work on creating a character, a dance sectional rehearsal, and a performance of a Sight & Sound Theatre production. By design, SSC will expose students to a broad variety of experiences in their training, preferring multiple focused encounters with a wide range of subject matter, over a more exhaustive study of a few select topics. The goal of SSC is for students to understand and embody the truly important values of professional performing arts, and be able to employ them with integrity and excellence.

A prominent portion of SSC’s training will be the student’s participation in Sight & Sound Theatre productions. This is where the practice of the classroom develops into the performance of the stage. Students will have “hands on” experience and be evaluated in the three major areas of a professional stage production: the rehearsal period, backstage and daily preparation, and the performance.
As has been stated, SSC is a very rigorous, intense and immersive experience. Because of this, **it is our strong recommendation that students do not work outside of the program during the second and third semesters. In addition, we ask that students not participate in outside performance opportunities while attending SSC.** Students are in class, rehearsal or performances 8 to 10 hours a day, Monday through Saturday. Sunday is an off day. However, as students have opportunity, we encourage them to take in the many cultural, historical and theatrical venues in the surrounding cities of Lancaster, Harrisburg, Hershey, Philadelphia, Washington D.C and New York.

SSC will organize at least one trip to New York City to see a Broadway performance. SSC students will also have access to discounts for many local performing arts venues.

The focus of SSC is not only to educate students, but to train performers. Our passion is for students to be able to perform at a professional level; striving always to interact graciously with their peers, and to lead with integrity and wisdom. So whether students feel called to a career in the world of arts and entertainment, or to work in existing Christ-centered theatre, minister through creative arts in the Church, or even pioneer a work of their own, SSC exists to provide students the training that can lead to lifelong fulfillment both professionally and personally.

**Program Length**

The 85 week program will consist of four semesters. The first semester is 15 weeks followed by semesters two through four which are 20 weeks in length. The total program will consist of **3406.5 clock hours of instruction.**

**Facilities**

SSC is housed in Sight & Sound’s Theatre, located at 300 Hartman Bridge Rd (Route 896) just outside the charming village of Strasburg, PA. Situated among the beautiful rolling fields of Amish farmland, Sight & Sound’s Theatre attracts over ¾ of a million people each year. SSC will be located primarily in the dance equipped studio space on the building’s second floor, in addition to making use of the state of the art 300 foot wrap around stage.

SSC is also minutes away from historic Lancaster, PA, home to a vibrant arts community. Lancaster has its own train station with access to New York City and Philadelphia, bus lines, and is within easy driving distance to the Harrisburg, Philadelphia, and Baltimore/Washington airports.

**Non-Discrimination Policy**

Sight & Sound Conservatory provides equal opportunity and admits students of any race, color, gender, national and ethnic origin to all the rights, privileges, programs, and activities generally accorded or made available to students at the Conservatory. It does not discriminate on the basis of race, color, gender, national or ethnic origin in administration of its admissions or educational policies, scholarships, or other school-administered programs.

Probationary Review:

Upon beginning the program, all students are subject to a 10 week probationary review. The School reserves the right to terminate training at the conclusion of the probationary period if a student’s progress is determined to be unsatisfactory. If training is terminated during the probationary period, the student is entitled to a refund of all unearned tuition. See Tuition Refund Table below for percentage of tuition refunded.

Withdrawal and Refund Policy

A. In case of injury, sickness, or if special circumstances arise, a student may request a leave of absence, which should include the date the student anticipates the leave beginning and ending. If the leave is due to injury, then the student must submit their request with a doctor’s recommendation of absence. The withdrawal date will specify the date the student is scheduled to return from the leave of absence. If a student requires an extension of the leave of absence, it is necessary for the student to communicate extension with the School Headmaster to avoid withdrawal.

B. The performing arts program at S&S Conservatory is a very demanding and intensive program that requires regular attendance. If, for whatever reason, a student misses a prolonged period of time that adversely affects the quality of the program experience, the Headmaster and Conservatory leadership will determine if withdrawal is necessary.

C. All refunds, if applicable according to the below table, will be returned to the student within 30 calendar days of the withdrawal date.

**Minimum Requirements for Commencement of Program**

For any given academic year, Sight & Sound Conservatory requires a minimum of 6 students before it can commence the Performing Arts Program. If less than 6 students are enrolled in the program, SSC reserves the right to delay commencement of the program until such time as enrollment minimum and fulfillment of program requirements can be met.

**Student to Teacher Ratio**

The number of students in the Performing Arts program will not exceed 10 students per academic year, thus making the student teacher ratio no more than 10:1.

**Grading System**

Grades will be assigned on a pass/fail basis. While the final grades will be issued at the end of each semester, students will be aware of their progress throughout each semester. Additionally, students and faculty will engage in ongoing dialogue regarding student progress. While some quantitative tools will be used in certain skills based courses, grading will focus on qualitative evaluation of each student's strengths, weaknesses, and artistic growth. Each evaluation will be followed by one of the four grading distinctions:

**Pass (P)** – Reserved for sufficient proficiency of course training, a decrease in a specified weakness, an increase in a specified strength, and/or for general artistic growth in relation to course training (unless otherwise indicated in course syllabus, requires a 60% total score of grading rubrics and/or quantitative assessments throughout course).

**Failed (F)** – Reserved for insufficient proficiency of course training, inadequate decrease in a specified weakness, increase in a specified strength, and/or inadequate artistic growth in relation to course training.

**Withdraw (W)** – Denotes that the student withdrew from the course before completion (see Withdraw policy on p. 9 for complete details); a plan for make-up work and/or academic recovery will accompany this grade.

**Incomplete (I)** – Indicates that the student did not satisfactorily complete course training, and did not withdraw from the course or program; at the discretion of the teaching faculty or School Headmaster, a plan for make-up work and/or academic recovery may accompany this grade; in some cases, an incomplete grade may result in termination of the program.

**Satisfactory Academic Progress**

10
Satisfactory Academic Progress in attendance and classroom/lab work is a requirement. Satisfactory Academic Progress is determined by the faculty throughout each semester. In addition to attendance requirements, each instructor will evaluate the student’s progress in classroom or lab work as well as a qualitative evaluation of each student’s strengths, weaknesses, and artistic growth. If a student is not meeting Satisfactory Academic Progress for any given semester, he/she will be advised of their academic and attendance status. If deemed necessary by the faculty and Headmaster, the student can be put on Academic Probation.

Academic Probation. If placed on Academic Probation, the student’s progress will be evaluated at the end of six weeks to determine their future in the program. It is the expectation that during the probation period the student will attend all scheduled classes and shows and complete all required work. If the student fails to display satisfactory academic progress, the school reserves the right to terminate training at the conclusion of the probationary period.

Make Up Work Policy

The make up work policy affords student the opportunity to make up classwork and tests that they have missed or failed. Students who miss or fail a test must make up the test prior to graduation in order to receive credit for the test. The student is responsible to make arrangements with the instructor to schedule a time to make up the test. No general or instructor fees will be charged for make up work.

In order to graduate with a certificate of completion from SSC, students must have a passing grade for all classes. If a student fails to pass a class, SSC faculty will work with the student to provide options for make up work which may include oral quizzes, skill development tests, hands-on skill evaluation, and participation in solo or group projects. However it is the student’s responsibility to make arrangements for any additional practice or independent study.

Attendance Policy

Regular, punctual attendance is mandatory. For every semester, each student is allowed to have either 2 excused absences or 1 unexcused absence without penalty. If the student exceeds this limit, they will be at risk of being placed on academic probation.

Excused Absences. If a student notifies the instructor that they will be absent 24 hours prior to the class, the absence is excused. A doctor’s note or evidence of special circumstances will change an unexcused absence to an excused.

Unexcused Absences. Students are required to notify their instructors 24 hours prior to being absent. If a student fails to notify their instructor within 24 hours of being absent, the absence will be considered unexcused.

Tardiness. A student will be considered absent from class if they miss more than fifteen minutes of class time. The absence will be considered unexcused.

Student Code of Conduct Policy

It is the policy of Sight & Sound Conservatory to enforce the rules of expected conduct, including the expectation of courtesy and respect in a consistent and equitable manner. To ensure orderly
